

CAR THIEVES PREFER KEYS

Make sure your property is secure, during the day, evening and overnight, even when you are at home.

Keep your keys away from doors and windows.

BY TARGETING THE CRIMINALS RESPONSIBLE**

CAR THIEVES PREFER KEYS

Car key burglary has increased in recent years as high value cars have improved security systems. Criminals now look to steal keys rather than force the ignition; often by accessing keys left in sight through letterboxes or by breaking in through insecure doors or windows.

It is important to take extra care to reduce the risk of becoming a victim, by:-

- keeping all keys out of sight and away from doors and windows.
- keeping doors and windows locked even when you are at home
- installing a home security system and setting the intruder alarm at night.
- using European standard TS007 anti-snap locks on UPVC doors.
- using a garage and gating your driveway.
- installing and activating a tracking device on your vehicle.
