

Item 21.1
Request for Subsidy

Background

We have received the following email:

I have booked the theatre for my annual show in May- James and the Giant Peach. I have sold tickets for 5x schools' performances at cost price, then I hope to be able to give my cast a split of the public performance ticket sales.

I have received the booking form with costs from Laurie. I wonder if there could be some consideration with the costs. I do not need a sound or lighting technician as I plan to operate the shows myself. I know we have a rule that nobody should use the theatres equipment without a technician, but could we negotiate a rate to use the equipment without a technician in this case?

For consideration

Clrs are asked to consider the request.
